

New Year's resolutions

Most people make resolutions and focus purely on self-improvement (which may explain why such resolutions seem so hard to follow through on). According to research, while as many as 45 percent of Americans say they usually make New Year's resolutions, only 8 percent are successful in achieving their goals. But that probably won't stop people from making resolutions anytime soon.

Why don't you make US one of your New Year's resolutions? Resolve to increase your attendance and work hard to complete your courses!
